   - Soc Sci/Psych 10A, 10B, and 10C OR Math 2A, 2B, and Math 7
   - Soc Sci 3A OR ICS 31

THE PROGRAM

UCI's undergraduate psychology program provides students with a strong foundation in general psychology, covering areas such as development, perception, learning, memory and cognitive processes.

The minor in psychology is ideal for those with an interest in the inner workings of the human brain but who may not want to commit to the major in cognitive science. The minor is a great complement to many majors including anthropology, sociology, social policy and public service, and political science.
