

# SCHOOL OF SOCIAL SCIENCES

## Readmission Policy for Disqualified Students

This applies to the following students who would like to be readmitted into the School of Social Sciences:

- 1) those students who have been formally disqualified from UCI for one time
- 2) those who were not formally disqualified, but your major is not allowing you to continue, and you do not meet the “change of major requirements” for any of the majors in the School of Social Sciences.

School of Social Sciences will not approve requests from students with more than one dismissal.

### To be considered for Readmission to the School of Social Sciences:

#### 1. Reflect on your past quarters at UCI and think about the following:

- What led to your deficient grades and academic disqualification?
- What are you going to do differently? What has changed with you and/or your situation?
- Are you able to prioritize school, or should you take some time off?
- What major are you hoping to graduate from UCI with? Please note that Dept of Economics (incl. Business Econ, Econ, and Quant Econ) and Dept of Cognitive Sciences (incl. Psychology and Cognitive Science) do not accept readmission—you must choose another major.

#### 2. Taking classes to qualify for readmission to the School of Social Sciences:

##### • For lower-division students:

You cannot be a regularly enrolled student at UCI for **one full academic year**. During that year enroll on a full-time basis (12 semester units per semester ~ about 4 classes) at a community college. All classes must be “UC Transferable.” These requirements must be completed before you can apply for readmission:

- ❖ minimum of five (5) “School of Social Sciences” courses
- ❖ lower-division writing
- ❖ “change of major” requirements for the major you are interested in pursuing

**You must enroll in all classes for a “letter grade option” and earn nothing less than “B” in each and every class.** Make sure to check the articulation agreement on [www.assist.org](http://www.assist.org) in order to choose appropriate courses.

##### • For students with advanced standing (90 or more units completed at UCI):

You will benefit more by taking courses through Concurrent Enrollment through the Division of Continuing Education (<https://ce.uci.edu/courses/concurrent/>), since you will be able to take upper-division courses and GPA will transfer upon readmission. Please e-mail Chika Kono ([ckono@uci.edu](mailto:ckono@uci.edu)) to work out the details of your readmission plan.

##### • ALL STUDENTS: Once you understand the above policy, write an e-mail to our “readmission counselor,” Chika Kono at [ckono@uci.edu](mailto:ckono@uci.edu).

Include in the e-mail: a) full name and UCI ID number, b) answers to #1 above, c) which school you plan to attend. Write “Readmission Request” in the subject. You will be e-mailed your readmission plan.

**Readmission is reviewed on an individual basis. Completing the above does not guarantee readmission. Certain majors such as Psychology, Cognitive Science, Business Economics, Economics, and Quantitative Economics do not accept readmission. Please choose another major.**

Please note that Readmission inquiries are not taken over the phone or walk-in advising.
